## HEALTHCARE

### TOMI™ Training and Support

The purchase of SteraMist™ Binary Ionization Technology® (BIT™) not only means you are investing in the best disinfection/decontamination technology currently on the market, but you will also be entering a fully supported partnership with TOMI™ Environmental Solutions, Inc.

Once your purchase is finalized, a certified SteraMist™ technician will conduct a site visit and training session with your EVS department and any other required personnel, based on your hospital's needs and the specific product purchased. During the same initial visit, the representative will review your facility's decontamination needs and recommend customized protocols for your immediate and ongoing surface and terminal clean requirements.

**This planned partnership was created with one goal in mind: to ensure you achieve your facility's optimal disinfection/decontamination!**

#### TOMI™ Training Program Includes:

- Hands-on training for facility staff – Application, Care, Safety, Troubleshooting.
- Supervisor training.
- Ongoing phone and e-mail consultation with a SteraMist™ Trainer at [training@tomimist.com](mailto:training@tomimist.com)

#### TOMI™ Support Package Includes:

- One year warranty with an option to extend.
- 24/7 equipment technical support (maintenance, troubleshooting, calibration) at [repair@tomimist.com](mailto:repair@tomimist.com)
- 24/7 SteraMist™ application support (protocols, proper usage) with a SteraMist™ Technician at [tomiservice@tomimist.com](mailto:tomiservice@tomimist.com)
- Rental Equipment (for emergency procedures/large project needs).
- Ongoing protocol consultations with a SteraMist™ Technician.
- Site visits upon request, when necessary.
- Your SteraMist™ representative is available for all other additional needs.
