

PORTABLE & FAST DISINFECTION FOR THE ROAD AHEAD

Not all areas that need to be disinfected stay in one place, and your disinfection shouldn't either. Submicron-sized particles reach everywhere that manual cleans can't, so whether it's on wheels, airborne, or seaworthy, **SteraMist**[®] technology brings powerfully fast EPA-registered disinfection to each of your vehicles.

STERAMIST TREATS:

- Vehicle Cabins and Upholstery
- Consoles and Electronic Equipment
- Trunk Space
- Windows & Windshields
- Vehicle Exteriors
- ...and many more!

NO MATTER WHAT YOUR INDUSTRY IS, STERAMIST[®] MAKES IT EASY

ENSURE THE VEHICLE IS CLEAR

Clear the vehicle of visible debris, ensure that all compartments are opened.

SPRAY THE VEHICLE INTERIOR

Apply SteraMist disinfection technology to the entirety of the vehicle's interior.

RETURN TO THE ROUTINE

Return the equipment to your storage for the next disinfection and enjoy your newly disinfected vehicle.
